

Video Visitation

In an effort to keep inmates housed inside the Natrona County Detention Center in touch with friends and family, video visitation will be offered. Video visits are maintained and operated by Securus, an off sight vender whom is solely responsible for this service. All video visits will be no more than twenty minutes in length. Prior to scheduling a video visit, ensure you coordinate the time with the inmate. Video visits are conducted only during times when the inmates are out of their rooms. Inmates housed in the detention center have access to their schedule and can inform you when they will be available to receive a video visit. The Natrona County Detention Center is offering two options for you to obtain video visits:

1. Off-site Video visitation

You may schedule a visit from any camera equipped computer, tablet or mobile device. There is no limitations to the number of off sight visits you can schedule per week. Off sight video visiting does have a fee of \$8.99, for up to twenty minutes. This fee is paid to Securus for providing the Natrona County Sheriff's Office with this service.

2. On-site video visitation

You may also schedule an on sight video visit utilizing one of the kiosks provided in our lobby at the Natrona County Detention Center. On sight video visits are limited to two per week, allowing everyone an opportunity to utilize this option. There is no fee associated from utilizing the on sight video visitation option.

Before conducting a video visit please review all rules and policies regarding video visits. Violations of the rules and policies from either party, can result in sanctions of future video visits. To schedule a video visit please go to www.videovisitanywhere.com.

E messaging

The Natrona County Detention Center through Securus is now offering E messaging between yourself and Inmates inside the detention center. Written messages can be sent to an inmate through www.videovisitanywhere.com. The inmate can also send written messages back to friends and family through this service. There is a fee of \$ 0.50 per E message sent. This fee is paid to Securus for providing the Natrona County Sheriff's Office with this service.
